OUR STORY

*Sharing moments
through Scent*

St Kilda Esplanade Market. circa 1972

Directors Christopher Phillips and Maureen Buckley began the company as a small venture in 1972, selling handmade candles at local markets. Their original names – the Gumleaf Candle Company and Gumleaf Aromatics – pay homage to the company's Australian roots. This faithfulness to Aussie nature never strayed, with Buckley & Phillips operating in the leafy suburb of Lilydale, Victoria.

From humble beginnings, Buckley & Phillips has blossomed into a diverse range of aromatics and essential oils. Our head office services large-scale production for Australian and global distribution, including contract manufacturing and private label. For local customers, we operate a storefront where you can sample our bespoke scents yourself.

We are 100% Australian-owned and established. We prioritise local sourcing and nourishing the local economy. Each product we create bears the mark of tireless research, testing and commitment to quality, while never sacrificing affordability. We remain family-owned, which is always reflected in the meticulous yet personal way we operate.

Our philosophy is simple. We start by scouring the globe for the most exceptional-quality ingredients available to us. We use decades of expert knowledge to create ranges that perform to a remarkably high standard. The final product is the scent of home: intimately, uniquely you.

Lilydale Head office

At Buckley & Phillips, our focus is on sourcing the finest quality ingredients available. We believe exceptional aromatics should be affordable and accessible, without sacrificing quality.

FIVE ELEMENTS

PREMIUM INCENSE

Since ancient times, the Chinese recognised that life is composed of five essential elements:

Fire, Earth, Metal, Wood and Water.

These elements interact to influence all things in the world, bringing movement, balance and prosperity.

Today, this philosophy has been combined with the practice of fragrance infusion, bringing harmony into your life.

Each exquisitely packaged tube contains 37 one-hour burning incense sticks and a ceramic holder.

4300 EARTH INCENSE

4301 FIRE INCENSE

4302 METAL INCENSE

4303 WATER INCENSE

4304 WOOD INCENSE

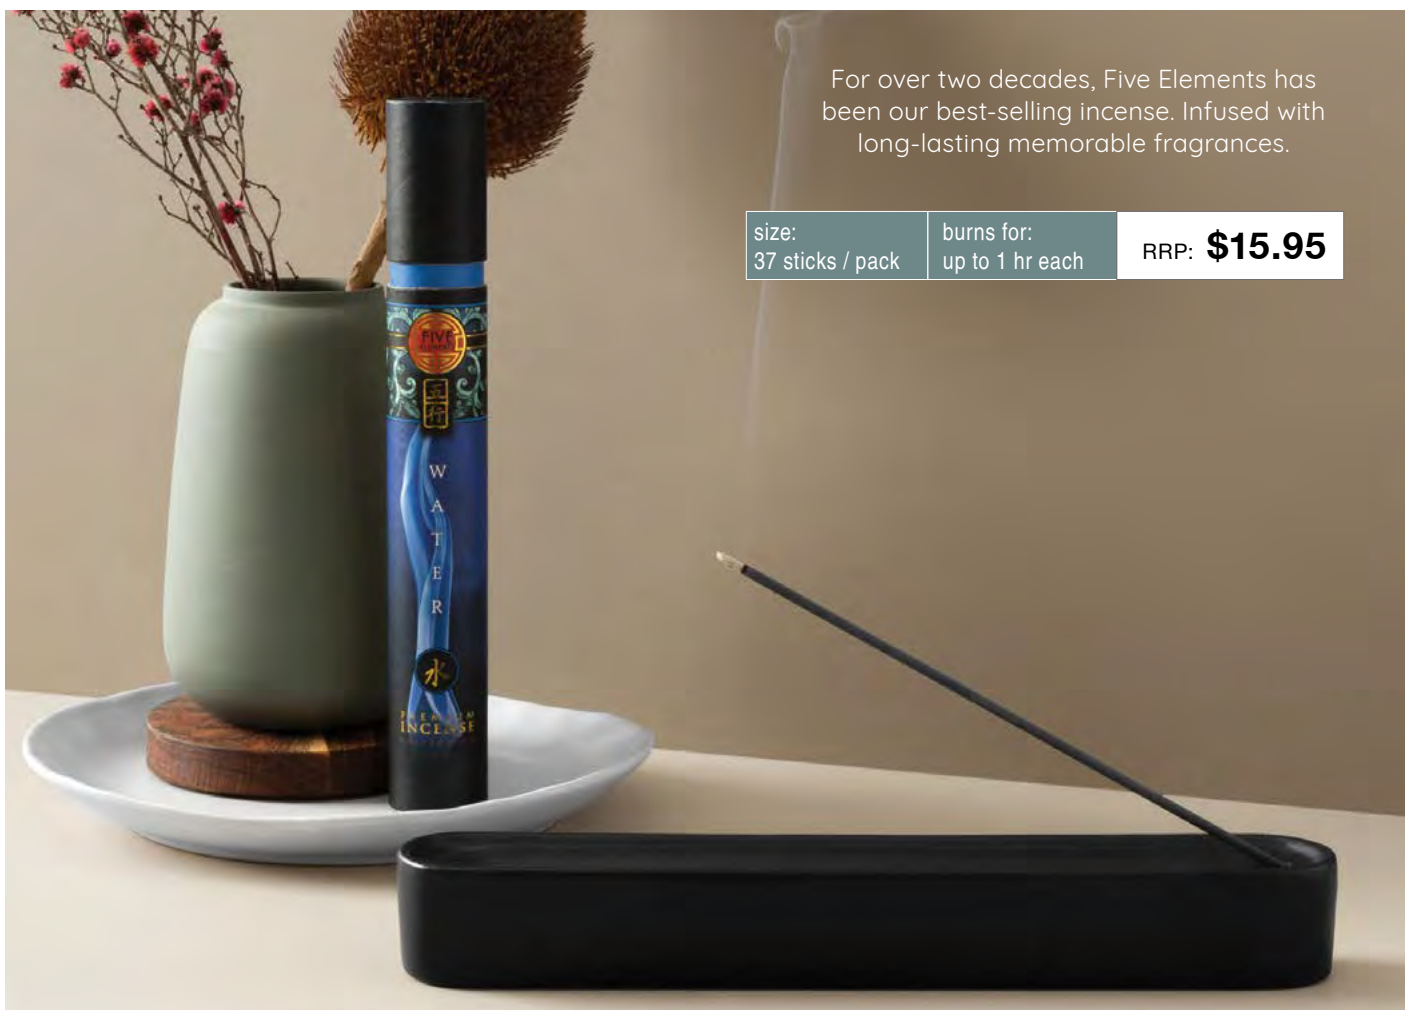

For over two decades, Five Elements has been our best-selling incense. Infused with long-lasting memorable fragrances.

Come with us on a journey.

From the hot sands of the Sahara, through bustling markets and ancient trade routes to the exotic and mysterious lands of the East.

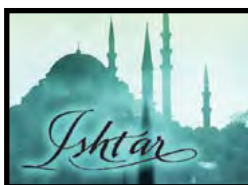

For centuries explorers, merchants and travellers alike have been captivated by the Spirit of the Orient.

Six unique and unforgettable perfumes await your discovery.

AKASHA is Sanskrit for the first element and the basis of all things in the natural world.

Sandalwood and patchouli create a warm base sweetened with pink musk and orange blossom.

ISHTAR is the Babylonian Goddess of fertility, love & war.

Warm spices of cinnamon, vetiver & vanilla surrounded by rose water, Turkish delight and pomegranate.

MEDINA are narrow lanes that wind through the old Arab quarters of north Africa.

Precious frankincense, copal amber and myrrh, aromatic cardamom and coriander with burnt sugar.

SAKURA means cherry blossom - a metaphor for the ephemeral nature of life.

Floral avenues of blossoming cherry and plum trees, bergamot smoked tea, maple and cedar shavings.

SALA is a place of rest and shade in a Thai Buddhist temple.

Fresh lemongrass with Thai basil and mint, sweet lotus blossoms and a base of patchouli and cedar.

YULAN is Mandarin for magnolia - an ancient symbol of purity.

A floral heart of peony rose, magnolia and jasmine brightened with grapefruit, mandarin zest and lychee.
